

CLAIMS

What is claimed is:

1. A papermaking felt comprising a ground fabric layer composed of a woven fabric, and a fibrous web placed on at least one side of the ground fabric layer, the ground fabric layer and fibrous web being integrally intertwined by needling, and the ground fabric layer having a warp and weft, each comprising distributed yarns, wherein at least part of the distributed yarns of the warp or weft of the ground fabric layer consists of straight yarns.

2. A papermaking felt comprising a ground fabric layer composed of a woven fabric, and a fibrous web placed on at least one side of the ground fabric layer, the ground fabric layer and fibrous web being integrally intertwined by needling, and the ground fabric layer having a warp and weft, wherein the ground fabric layer is composed of winding yarns, and includes additional straight yarns evenly inserted along its warp or weft.
